

## To Whomsoever It May Concern

Anik Chatterjee has been an Intern at hello ML from February 2021 to May 2021. It has been a pleasure to work with him and he has proved to be a valuable asset for the entire team.

Anik got acquainted with our workflow quickly and has contributed to hello ML by exploring and writing articles on a wide range of topics in machine learning like SimCLR, NLP, LSTM and a lot more.

He also worked on a project to develop a GAN to generate fake images. We appreciate his ability to understand relatively challenging machine learning concepts and explain them well. We, strongly, suggest everyone to read his published work at <https://helloml.org/author/anik-chatterjee/>. It has been an immense pleasure to work with him during the internship and I, strongly, recommend him for any challenging technical or research role in machine learning.

Sincerely,
